Summary

Final-year IT undergraduate with proven experience building full-stack AI applications, desktop automation tools, and a live-deployed healthcare platform. Proficient in Python, SQL, machine learning, React, and FastAPI, with exposure to quantum computing (Qiskit) and cloud deployments.

Education

KIIT Kalinga Institute of Industrial Technology B.Tech in Information Technology CGPA: 6.96	Jul 2023 – May 2027
D.A.V Model School, Durgapur-05 All India Senior School Certificate Examination 77.6%	Apr 2021 – Mar 2023
D.A.V Model School, Durgapur Secondary School Examination 93.2%	Apr 2010 – Mar 2021

Certifications & Training

Deloitte — Data Analytics Virtual Job Simulation	Mar 2026
AWS Academy — Cloud Foundations	Mar 2026
Coursera — Business Ethics & Corporate Governance	Feb 2026
Salesforce Trailhead — AI, CRM & Business Badges	2025

Skills

Technical Skills

- Data Analysis, Visualization & Modeling
- Python (Pandas, NumPy, Matplotlib, Seaborn)
- ML (Scikit-learn, TensorFlow, PyTorch)
- SQL & PL/SQL (PostgreSQL, MySQL, SQLite)
- Full-Stack (React, Node.js, FastAPI, Flask)
- BI Tools (Power BI, Tableau, Recharts, Plotly)
- Quantum Computing (Qiskit, PennyLane — Basic)
- Cloud (AWS, Vercel, Railway)

Business & Consultancy Skills

- CRM & Salesforce (Trailhead — AI & Business)
- Business Intelligence & Reporting
- SEO, Market Research & Digital Strategy
- Data-Driven Decision Making
- Leadership & Team Management
- Stakeholder Communication
- Problem Solving & Critical Thinking
- Agile & Project Management Basics

Projects

NeuroStream AI — <i>Full-Stack Desktop Video Streaming Platform with AI Voice Control</i>	2025 — GitHub
• Built a desktop video streaming app (Electron 30 + React 18 + Express) with chunked HTTP streaming, range-request seeking, real fprobe/ffmpeg thumbnail generation, and auto-detected quality badges (4K/FHD/HD/SD). • Engineered voice-controlled Jarvis Mode (Web Speech API, 20+ commands, TTS), persistent watch history with 5-second auto-save, queue system, PiP mode, subtitle support, and Zustand-managed JSON file backend.	
Stack: React 18, Electron 30, Express, Vite, Zustand, ffmpeg, Web Speech API	
S.G.A — Personal AI Assistant — <i>Voice + Gesture Control + Face Auth Desktop AI</i>	2025 — GitHub
• Built a native Electron + FastAPI desktop AI with 35+ voice actions and a holographic React UI; resilient AI fallback chain: Groq LLaMA 3.3 70B → Gemini 2.0 Flash → Ollama (local) → Wikipedia/DuckDuckGo. • Integrated MediaPipe gesture control (21-landmark, 7 gestures), face biometric auth (face_recognition + dlib), voice-to-STL 3D CAD generation (build123d), and SQLite context memory with daily morning briefings.	
Stack: Python 3.10, React, Electron, FastAPI, Groq, Gemini, MediaPipe, SQLite, Playwright, build123d	
MediAssist Pro — <i>Deployed Full-Stack AI Healthcare PWA</i>	2025 — Live Demo — GitHub
• Deployed a mobile-first PWA (Android/iOS/Desktop installable) with AI symptom analysis (Groq/Llama 3.1), real GPS hospital discovery (OpenStreetMap Overpass API + Leaflet), and real-time doctor chat (Socket.io). • Full backend (Node.js + Express + MongoDB, JWT auth), health analytics (Recharts), prescription PDF export (jsPDF), push notification reminders, Web Bluetooth wearables — free-tier deployed on Railway + Vercel.	
Stack: React 18, Vite, Zustand, Recharts, Leaflet, Socket.io, Express, MongoDB, Groq AI, jsPDF, PWA	
Quantum-Assisted Wildlife Monitoring & Threat Detection — <i>Research Paper (Ongoing)</i>	Paper Link
• Developed a hybrid QAML framework combining CNN feature extraction with QSVM/VQC quantum models for wildlife threat classification across camera traps, drone imagery, and acoustic signals.	
Stack: Python, PyTorch, TensorFlow, Qiskit, PennyLane, OpenCV, Librosa, Flask, FastAPI
